

St. Paul's Co-ed  
SUMMER PORTAL  
聖保羅男女暑期學校 25  
16-25 JULY 2025

Steered by a vision to inspire and in following the educational philosophy of St. Paul's Co-educational College, the Summer Portal is established under the College Council to provide a uniquely "St. Paulian" experience for students to grow, learn and interact with faculty members, professionals as well as peers from across the community.

## ST. PAUL'S CO-EDUCATIONAL COLLEGE

Founded in 1915 based on the Christian spirit of "Faith, Hope and Love", St. Paul's Co-educational College and its affiliated Primary School sets out to nurture students as future leaders by instilling in them a culture of excellence, high moral values, an altruistic spirit, a passion of lifelong learning and a global perspective. For more information, please visit [www.spcc.edu.hk](http://www.spcc.edu.hk).

Summer Portal 2025 is a 10-day boarding programme for students aged 10-13 who are passionate learners and music lovers, where music, creative problem-solving, sports and value education form the four core pillars in a holistic, integrated, transformative and customizable learning experience.

# MUSIC

## Choral or Chamber Music

The Summer Portal is designed with music as a common language and as an impetus to stimulate growth in a child's development.

Students audition either for the **Choral Stream** as singers in the Portal Choir or the **Chamber Music Stream** as instrumentalists majoring in **piano, violin, viola, or cello**. They receive intensive coaching by the faculty throughout the camp and perform at the Gala Concert.

# VALUE EDUCATION

## Character Building, Social Play, DEAR Time, Parents' Fireside Chat

The Portal's 2R motto – Be Ready to Learn and Be Respectful – is interwoven into the fabric of the Portal experience. Students not only learn about these values but also embody them, as guided by the Portal Guardian. Every student is issued a Passport to Learning which serves not only as a note-taking journal but also as a cherished companion that bears witness to its owner's discovery, growth, and fond memories. All shall be revealed in the camp-end Parents' Fireside Chat, where the Portal Director and Guardian will share what their children have learned and how these lessons can be reinforced at home.

# CREATIVE PROBLEM SOLVING

Think-n-Speak, Think-n-Craft or Think-n-Design

What's more important than acquiring knowledge in today's AI age is developing skills that are transferrable. No attributes come more critical than creativity and problem-solving.

Students can choose from one of the three electives, through which to develop their critical thinking skills. While **Think-n-Speak** uses debating as forum, **Think-n-Craft** allows students to express through arts and craft and **Think-n-Design** explores design thinking with AI and multimedia tools.

# SPORTS

Basketball, Table Tennis or Fencing

To promote a balanced lifestyle and boost endorphins, students can choose to participate in **basketball**, **table tennis**, or **fencing**, regardless of their experience or skill level.

Through sports, students learn a plethora of transferrable skills and generic attributes, such as the practice of grit and sportsmanship.

# 4-in-1

holistic.

integrated.

customizable.

transformative.

# WORLD CLASS FACULTY

The programme is designed entirely and taught primarily by faculty of St. Paul's Co-educational College (SPCC) and its affiliated Primary School (SPCCPS). They are joined by a team of world class faculty members, all of whom have a deep understanding of our education philosophy.
